

**Abstinence is the Goal.
Accurate Assessment is the Key.**

Whether designing an individual substance abuse treatment program or developing an assessment and evaluation for a drivers license restoration appeal or pre-trial, an accurate and comprehensive assessment is a necessary and crucial element.

The Substance Abuse Evaluation is a necessary and vital step in the restoration process. It is **Completely Confidential**. The assessment is necessary to identify past and current substance use patterns and develop accurate recommendations for prevention, intervention, counseling and treatment if needed. The recommendations are not solely defined by the testing instruments. An in-depth interview and complete bio-psycho-social evaluation is conducted to take into account a unique whole-person lifestyle.

10 Panel Drug Screens are scheduled and analyzed utilizing the services of Quest Diagnostics, a company that provides local facilities and has a national reputation for reliability and advanced technology.

We provide a Comprehensive, Confidential Assessment and Narrative, State of Michigan form SOS-258, 10 Panel Drug Screen, as well as step by step guidance on Documentation, requirements and contact information for other resources.

About Us

Laura M. Khalil

Certified Addictionologist

Executive Director and Co-Founder of Khalil Family Wellness & Intervention

Laura is board certified in Addictions and Compulsive Disorders as well as Auriculotherapy by the American College of Addictionology and Compulsive Disorders. She has served in the drug free Health and Wellness industry for over 20 years and serves the community as Executive Director of Khalil Family Wellness & Intervention, (KFWI), currently pursuing her Diplome in Addictions and Compulsive Disorders. She is a member NAADAC, (National Association of Alcoholics and Drug Abuse Counselors), a member of Zen Bei Butoku-Kai International, and a member of the U. S. Army Grassroots Advisory Board.

KFWI has, among its goals,:

- 1) To inform and educate about gateway behaviors that may result in destructive outcomes;
- 2) To provide a drug free, intensive outpatient program which empowers and supports an individual's decision to choose a lifestyle free of destructive behaviors.

The Path from Addiction to Wellness

At KFWI we understand that each person is unique and responds in different ways. Our progressive approach utilizes a variety of drug-free treatments to address each individual's underlying issues.

What to Expect

The work involved in restoring a driver's license includes very specific requirements. In order to make the process as stress free as possible I provide all new clients with information to help them better understand what is required and what to expect at our first meeting.

The Substance Use Evaluation requires the following information.:

- Treatment and relapse history (Specific months and years)
- History of charges and convictions for substance use (If any)
- Support group attendance (If attended)
- Proof of current and past involvement with treatment programs /structured support programs.
- Copy of current driving record and conviction history including Blood Alcohol level (If applicable)
- An attorney may have this information already. If so it will be necessary for it to be produced at the first meeting.
- A current 10-panel drug screen. This can be ordered on line from this office after the evaluation process
- It will be important to provide information specific to current living and employment situation, lifestyle changes, prescription drugs that have been or are currently being taken and any other contributing factors relative to sobriety,
- Notarized testimonial letters

The appeal

Details are Vital!

“Clear and Convincing Evidence”

For an appeal to be successful the Hearing Officer must be left with a definite conviction that a substance abuse problem is under control and that recovery can be achieved with a minimal risk of repeat behavior.

Drivers license restoration is a complicated process, usually requiring the assistance of a knowledgeable attorney who understands exactly what the Hearing Officer will be looking for and will assist in navigating the necessary steps.
